gc: 1968 motion and movers

we walked through mud, eyes watching, hands waiting to move into our new library. we wondered what we would find, what friends and facts we would learn to know, what would become of us this year.

good library at last

it's new
and it's neat
with carpet on the floor
with carrels to study in
alone and absorb.
it's got books and
reading rooms to be
quiet in, a lounge
with a tree at christmas
and an area where
you can talk out loud.

THE GOSHEN PLAN

Information for presently enrolled students and those who will enroll by September, 1968.

I. Major Elements of the Goshen Plan

A. The Study-Service Trimester (SST) is an intercultural laboratory for general education--fourteen weeks of living in an underdeveloped foreign culture of the Western Hemisphere, with about seven weeks spent in getting acquainted with the culture through lectures, usually by native specialists, field trips, seminars, intensive language study and collateral reading and seven weeks in a PAX, VS or Peace Corps type of service.

SST Teams will be comprised of 12-20 students and one faculty couple. The members will normally live with a family of the host country.

In establishing the SST, the faculty voted its conviction that the educated man and the effective Christian of the future must be "detribalized"--set free from his genealogical, denominational or national tribe to join the world-wide tribe in which there is "no east nor west, neither Jew nor Greek..."

B. The Trimester Calendar is a wonderfully flexible instrument. The dates of the three trimesters, 1968-69, will be:

Fall Trimester: September 9 - December 19, 1968
Winter Trimester: January 6 - April 11, 1969
Spring Trimester: April 28 - August 1, 1969
(4 terms, beginning April 28, May 22, June 16, July 10)

This is an example of some of the misunderstanding that many of us at the college would not like to see!

James Rempel

I have read your article printed in the Goshen News.

I realize that since you signed your name the News was obligated to print it you don't understand why the City of Goshen is not friendly with the Goshen College students.

I was a student at Goshen College in 1918 and taught school in Goshen for many years.

When the Goshen College is mentioned out of town it is highly credited.

Now, I can easily tell you why we residents of Goshen young and old have no respect for the students or faculty of the Goshen College

escape from the grind

we think we're
relaxing and push
the books to the back
of our minds. now
our hands rest
our chins, tired of pencils,
cokes wet nervously
chewed lips and eyes
close or concentrate on
pinballs, weary
of blackboards.

relaxing with a cue and a queen

without a tie or
a care we play

church furniture
is not the whole
story . . .

one should also expect it to stay beautiful and last for several generations. and, that's just the way sauder builds it!

since 1930 sauder has served america's churches with furniture and chancel installations that are among the finest in the industry. its craftsmen have the sensitivity and feel for wood that qualifies them to create ecclesiastical appointments in any architecture. write for literature showing some of our standard designs, pictorial highlights of our plant, and a partial list of souder installations.

in the twelfth chopter of matthew Jesus Christ the Lord authorized this only sign identifying himself to supernatural lineoge

courtesy of reith, rohrer, & ehret

new paris—goshen

1. the circle around the eye represents the connection and woy from the cross to the tomb.
2. on top of the circle around the eye are the crosses representing the crucifixion of our Lord.
3. the circle stops at the outline of the open tomb.
4. the eye proper represents the stone rolled away from the empty tomb.
5. the eye proper olso represents the world.
6. within the eye proper, representing the world, we see the portion of the world emphasizing the u.s.
7. the fish itself is an early christian sign or symbol found on the tombs of early Christions as a reminder thot as jonah was resurrected from the fish after 3 doys and 3 nights, so wos Jesus resurrected from the grove after like time. thus easter becomes the most sacred of all religious holidays since the Christions' faith ond hope is bosed on the resurrection of their founder!

MILES WORLDWIDE

It could have happened elsewhere . . . but folks around Elkhart are mighty glad it didn't. Some 24,000 employees and a prosperous city are happy that Elkhart is home for Miles. Founded before the turn of the century, in 1884, the growth of Miles Laboratories is an aggressively American story. There is no claim toward being unique in this successful effort, but there is extreme pride in being among those great American firms that have grown vigorously in this century. To be sure—Miles is Hoosier at home, but now WORLDWIDE in production and research and people. Look at Miles and its divisions today: Twenty six plants throughout this country and abroad. Almost 3,000 employees in the United States, more than 1,300 beyond. The products that come from this widespread effort suggest a wise diversity. Much of Miles' production is found in pharmaceuticals, but continuing growth is revealed in chemicals, while a broadening area is shown in laboratory equipment and supplies and electronic instruments. Surely, whether it is in Cuernavaca, Haifa, or São Paulo, it is exciting to recall—that it all began in Elkhart, Indiana.

—and it all began in Elkhart, Indiana
